SUMMARY

Highly skilled Frontend Developer with a passion for crafting exceptional user experiences through innovative and responsive web applications. With a strong background in HTML, CSS, and JavaScript, I specialize in turning design concepts into fully functional, interactive websites. Proficient in various frontend frameworks such as **Reactjs**. I excel in building dynamic interfaces and implementing client-side functionalities. Experienced in optimizing web performance and ensuring cross-browser compatibility .

SKILLS

- Proficient in HTML5, CSS3, and JavaScript.
- Experience with frontend frameworks/libraries such as **React.js**, **Next.js**, **Express.js**, **Firbase**, **MongoDB**.
- Strong understanding of responsive design principles and techniques.
- Knowledge of CSS preprocessors like **Tailwind CSS**.
- Experience in designing and implementing complex motion effects using **Framer Motion**.
- Familiarity with version control systems such as **Git**.
- Experience with RESTful APIs and asynchronous programming.

EXPERIENCE

Frontend Developer, OPAAI LTD.

- Spearheaded the frontend development efforts in a fast-paced startup environment, contributing to the creation of innovative web applications from scratch.
- Utilized modern frontend technologies such as React.js and Redux to develop responsive and dynamic user interfaces for the company's flagship product.
- Collaborated closely with designers and product managers to translate wireframes and mockups into fully functional web applications, ensuring pixel-perfect implementation and intuitive user experiences.
- Implemented client-side data management and state management solutions using Redux, enhancing application performance and scalability.

PROJECT

RESTAURANT WEB APPLICATION - eatopendoor.vercel.app

- The power of **Vite** to optimize and bundle our modules, ensuring a lightning-fast browsing experience. This website is built with React, providing a smooth and interactive user interface. **Tailwind CSS**, our site adapts to every screen size, offering a seamless experience on desktops, tablets, and mobile devices. Dive into a world of captivating animations with **Framer Motion**. Our website comes to life with fluid and eye-catching motion designs.

FAKESTOREAPIS.in - fakestoreapi.in

- Developed a prototype e-commerce website featuring **150** cooking products with optimized API response times (up to 400ms) and pagination functionality for efficient product listing navigation. Designed and implemented frontend components using React.js for a responsive and visually appealing user interface. Created **RESTful** API endpoints using **Node.js** and **Express.js** to serve product data from a **MongoDB** database. Ensured seamless integration of high-quality cooking product thumbnails to enhance the website's overall presentation and user experience.

TODO LIST - keepyourselfupdated.vercel.app

- It's not just functional; it's also visually satisfying thanks to the awesome animations In the logic department, I've implemented robust functionalities including **UPDATE**, **DELETE**, and **EDIT**. Managing tasks has never been more intuitive and user-friendly Platform: **Next.js** Developed on: **Vercel** .

EDUCATION

University of Patna

BA: Arts(Geography Hons.)

School – Kendriya Vidyalaya Katihar.
